The Special Committee was given a broad directive by the Legislative cil to make recommendations on the state's groundwater management: £ The Special Committee was directed to study and submit recommend at the following issues:

1. Formulating a statutory goal statement clarifying the state's groutn management policies;
2. Directing state agencies to develop groundwater management where applicable, in compliance with the statutory groundwater polic
3. Formulating the means to implement groundwater management dures;
4. Establishing statutory authority and regulatory programs to groundwater management problems; and
5. Suggesting programs which are not solely regulatory, such as pu.b] cation programs or coordinating councils.

The Legislative Council also established a Technical Advisory Con (TAC) to assist the Special Committee in completing its assignment. The lative Council appointed representatives of the following seven state a to serve on the TAC:

Dr. Henry Anderson
DHSS Linda Bochert
DNR Professor Stephen Born
University of Wisconsin—Extension Thomas Dawson
DOJ
Orlo R. Ehart
